PLASTER OF PARIS BANDAGE

Shaped easily due to its soft composition.

Areas of usage; plastering applied by circular rotations without fixing in fractures, orthopedic corrections, joint and bone irregularities.

Made of 100% cotton yarn – gauze bandage and orthopedic plaster, and the time for starting for hardening takes place between; 2-8 minutes.

Cast with quick setting time model is available.

* Oem available / Different sizes available.

REF NO: ESY3.01000

SIZES				
5cm	7,5cm	10cm	15cm	20cm

CAST PADDING

Minimizes the formation of wounds sourced from friction and provides the patient to get healed under comfortable conditions.

It can be torn and separated easily, therefore it provides contribution for adaptation and application, and with under plaster cotton, it minimizes the exposure of weight over the fracture after padding.

It has an excellent adaptation property thus it prepares easy application and an environment for smooth plaster surface.

* Oem available / Different sizes available.

REF NO: ESY3.02000

SIZES				
5cm	7,5cm	10cm	15cm	20cm

SYNTHETIC CASTING TAPE

EASYFLOW Is a synthetic fill-band which is impregnated with polyurethane resin, which is activated by water prior to use.

Excellent Molding - provided excellent multi- faceted stretching and excellent molding in curved area.

Smooth Coverage - Top quality sub- layer and special resin layer provides smooth surface and clean and strong end- lamination.

Cost Effective - Compared to POP band, requires less rolls and refilling.

Fiberglas and Polyester Selection - For those who prefer non-fiberglass sub-layer, top quality polyester fill band is available.

Lightness, incredible power, endurance, air permeability and X-ray transparency.

* Soft cast model made of semi-rigid polyester (non - fiberglass) which allows earlier mobility and reduces most of the problems with rigid immobilization is available.

* Oem available / Different sizes available.

REF NO: ESY1.01000

SIZES				
2 inch - 5 cm	3 inch - 7,5 cm	4 inch - 10 cm	5 inch - 12,5 cm	6 inch - 15 cm

SYNTHETIC ROLL SPLINT

Fabric impregnated with very powerful 8-layered polyurethane resin.

Fill which does not include soft knitting in both sides.

Use without gloves.

Excellent molding for curved applications.

A resin basis- splint which is packed, curable with water.

Various dimensions which have been cut previously for different applications.

Economic roll type product with cut and close- folio packaging.

* Oem available / Different sizes available.

REF NO: ESY1.02000

SIZES				
2 inch - 5 cm	3 inch - 7,5 cm	4 inch - 10 cm	5 inch - 12,5 cm	6 inch - 15 cm

ELASTIC BANDAGE

REF NO: ESY1.03000

It is made of polyester for weft yarn, whereas made of cotton yarn and latex for warp yarn. As it is made of cotton intensively, no allergic reaction occurs on the skin.

Elastic bandage may be used by everybody as a fixing instrument for used for the fixing of compression for muscular-based pains in case of slight muscular damages.

It has 125% elongation - with mainly 2 metal fixing clamp.

- # Different width of bandage can be manufactured from 5cm to 20cm
- # Oem available / Different sizes available.

Does Not Cause Allergies.

Air Movement

Washable.

SELF- ADHESIVE BANDAGE

Cohesive bandage which is suitable for medium support or compression.

Its adhesive properties are long lasting and provide firm, controlled support.

Fluffy non-fray edges prevent the bandage from rucking or marking.

Limitation of movement (sprains & strains) and Correction of false position & posture.

Water repellent.

Air permeable.

Thinner substrate.

- # Different sizes are available.

PERINEAL AREA AND BODY CLEANSING TOWEL

REF NO: ESY3.12000

Easyflow Perineal and Body Cleansing Towel are designed to clean the whole body in cases where is not possible to take a shower. Packaged ready to use, Easyflow Perineal and Body Cleansing Towel cleanse, Moisturize , nourish and protect the skin. Compatible with skin pH. Does not contain alcohol and does not require extra rinsing or drying. It helps you to have a healthier skin with its rich content. It has the feature of preventing and removing bad odor in the perineal and other areas. It leaves a fresh and clean feeling after use.

Usage Instruction:

Open the package from the part shown on the label. Apply to the area you want to apply by wiping. Use a separate towel for each zone.

Warnings and First Aid Precautions:

Do not use if package is damaged. Do not use on open wounds. Do not keep the product on the wound, do not use it as a buffer. Do not reuse. For 0-6 months babies, breastfeeding or pregnant women should be used under the supervision of a doctor. Do not use other cleaning products before, after or with this product. Avoid contact with eyes. If contact occurs, wash thoroughly with water. For external use. Keep out of reach of children. Keep away from sunlight. Store at room temperature.

REF NO: ESY3.11000

BARRIER SPRAY

- Silicon - based item.
- Provides skin - moisture.
- Accelerates the treatment process.
- Creates barrier against body liquids.
- Obstructs liquid contact.
- Packed in single - boxes.

REF NO: ESY3.28000

ADHESIVE REMOVER SPRAY

- Silicon - based item.
- Provides plaster etc. adhesives removed easily.
- No skin damage.
- Cohorent with sensitive skins.
- Sold in single - boxes.
- Adhesive remover hankies may be given along with.

REF NO: ESY3.13000

BODY CLEANSING FIBER

Body Cleansing Bag, offers a highly effective and easy care opportunity thanks to its hand-wearable bag-shaped structure. With its honeycomb texture, it easily removes even bulky remains from the body. With its 85 GSM thick soft cloth material, it contains more solution than wipes. One package of Body Wash Bag can be used for a person's entire body care can be provided. It does not dry the skin as in cleaning processes using soap and water. It gives the skin elasticity and contributes to healthier skin. It allows body cleansing to be done in less time compared to traditional washing methods.

Usage:

Open the package from the marked place.
Add enough water on the fiber to cause foaming
After cleaning, dry the area with a dry and clean cloth.

Cautions:

Keep away from children, do not expose to direct sunlight.
Store in dry and cool place (at room temperature)
It should not be used on open wounds, genital area and allergic skin
For external use

REF NO: ESY3.14000

HAIR WASHING CAP

It and provides cannot be hair and washed. scalp It is care a and disposable cleaning hair for washing people, who bonnet are that does bedridden, not have require limited, rinsing mobility, and contains have special shampoo needs conditione.

Use with Microwave:

Keeping the opening label of the package half open, place it in the microwave oven.
Soak for 20 seconds at max 700 W. Check the temperature of the product before use.
Do not use at temperature above 35-40 C Open.

3 BALLS EXERCISER

Using a respiratory exerciser after surgery will help you keep your lungs clear.

The device will also help keep your lungs active when you are recovering from surgery as if you were at home performing your daily activities.

It will help you breathe properly to inhale and exhale more.

It is used to reduce breathing problems and shortness of breath.

REF NO: ESY3.22000

MANUEL RESUSCITATOR

It is a manually applied breathing apparatus to the person who wants to have artificial respiration.

PVC and silicone options are available.

Adult, pediatric and neonatal models are available.

The package includes an oxygen tube, reservoir, mask, berman airway, mouth opener.

SIZES		
Adult	Pediatric	Neonatal

REF NO: ESY3.26000

ENEMA SET

Rectum end available for easy use.

1,750 ml capacity.

Made of soft PVC material.

Hose resistant to 110cm bending Castile soap.

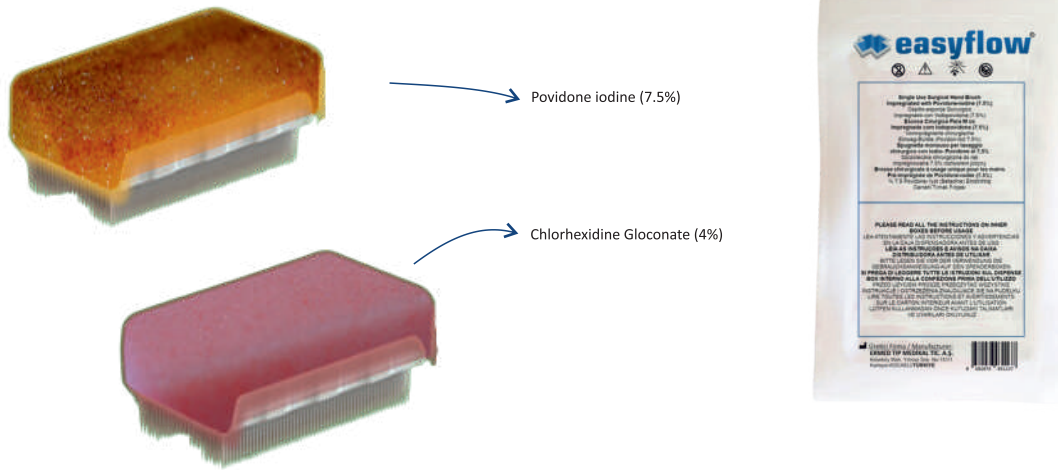

Liquid tight napkin.

PE glove.

Offset gel.

SURGICAL HAND BRUSH

REF NO: ESY3.27000

Impregnated with Chlorhexidine Gloconate (4%) or Povidone-Iodine. (7.5%)

It has ergonomic design.

Soft bristles for no skin irritation.

Smooth and soft sponge absorbs up to 90 ml liquid.

REF NO: ESY3.31000

STERILIZATION ROLL

Non-toxic, highly resistant, reinforced film

Medical grade kraft paper with a sterilization barrier, available in 60 gsm and 70 gsm.

Can be easily sealed with all types of sealing devices.

Clear and precise indicator color changes.

Opens without tearing or leaving fibers.

*TYVEK STERILIZATION ROLL available.

REF NO: ESY3.32000

WRAP PAPER

Consistent with all international standards.

Permeable and forms bacterial barrier.

Produced from pure cellulose.

Colors: Green, Blue, White.

REF NO: ESY3.29000

ALCOHOL SWAB

Alcohol swabs are used by people who use drugs to clean an injection site before injection.

It is also used as to clean their fingers and thumb before an injection and to remove any blood from the injection on their fingers and other surfaces.

It helps ensure reliable site preparation for safe, hygienic insulin injections.

Includes 70% isopropyl alcohol.

REF NO: ESY3.33000

WOODEN TONGUE DEPRESSOR

Made of Class 1 white birch.

Soft and smooth surface.

Stored in homogeneous -100 packages.

Sterile and non-sterile versions.

REF NO: ESY3.30000

GEL COMPRESS

They are products that are used cold when left in the freezer, and used as hot when heated and serve as heating.

It does not freeze in the freezer and maintains its coldness for a long time.

It maintains its temperature for a long time when placed in a microwave oven or in hot water.

It is used with its plastic packaging.

Offered in 3 different sizes.

REF NO: ESY3.34000

TOURNIQUET

Applied on bones. (Arm-biceps, leg-femur)

Tourniquet should be applied for serious bleeding cases which are unable to be prevented by other procedures and having a serious danger of life.

Tourniquet is necessary in cases in which large veins (artery) are cut.

Tourniquet should be placed slightly over the wound, not to match with joint and without touching the wound.

REF NO: ESY3.35000

SHARP CONTAINER

Used for medical waste.

Quality plastic material.

Lockable cover.

SIZES					
1,2lt	2lt	3lt	5lt	10lt	30lt

REF NO: ESY3.39000

URINARY

Used for patients' need to go to bathroom.

Patient urinary has cover and is made of plastic.

Washable.

Used for the patients who are unable to leave their beds especially.

Appropriate for use by male and female.

REF NO: ESY3.36000

DRUG BOWL

Made of firm plastic.

Includes cover for drug bowl.

REF NO: ESY3.40000

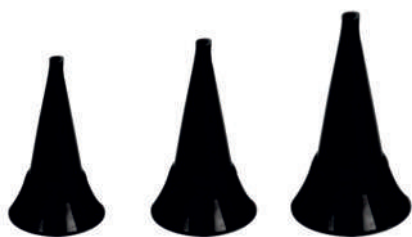

URINAL

High quality plastic urinal (bed shovel) made of transparent plastic.

Light and easy to use.

Washable.

REF NO: ESY3.37000
